A: You can do that: from tkinter import * from tkinter import filedialog def dl_movie_button(event): global choice path_to_movie = filedialog.askopenfilename() choice = choice.get() print (path_to_movie) choice = path_to_movie.rstrip(".mp4") # Do something with choice here print (choice) root = Tk() Label(root, text="Choose Your Movie").grid(row=0, column=0) Label(root, text="Pick a Movie").grid(row=1,

column=0) Button(root, text="Choose Movie", command=dl_movie_button).grid(row=1, column=1) root.mainloop() I used a filedialog to pick a file (script by @Ashwath): Then I used the rstrip to remove the extension of the file and use the String.rstrip to remove the '/' characters at the end of the file. As you can see, choice = choice.get() was already used to get the selected file path, so you can get the file without do it twice (I dont think it's a big problem). See the module reference: You can check too. Pretzel Dreams Published Dec 3, 2009 12:01PM GREAT FALLS - For those of you who don't live in Great Falls or have already gotten your Christmas shopping done, here's something else you might have to get for your family and friends: pretzels. Curry's Old Fashion Pretzel Co. of Great Falls, located on the east side of town in the Great Falls Plaza, is offering a variety of both sweet and savory pretzels for the season. Established in 1947, owner and chief baker Norm Curry said it's been a tradition for him and his family to offer their customers choices. "The regulars know what they f678ea9f9e
